ABOUT OUR PRESENTERS

We are delighted to have an All-star cast of speakers at our 10th Annual Gardening Symposium

Bob Westerfield is the Extension Consumer Horticulturist in the Dept. of Horticulture at UGA Griffin specializing in woody ornamentals and vegetables. His responsibilities include developing agent consumer resources, conducting agent trainings and teaching master gardener classes. Bob has advised home gardeners across the state for more than 25 years – first as a UGA Extension agent and for the past 20 years as Extension's home gardening expert. He manages research gardening plots on the UGA College of Agricultural and Environmental Sciences' campus in Griffin in order to study the pests and diseases that home gardeners tackle. Bob also is the author of "Ask the Expert" (advice for gardeners all over Georgia) in the Georgia Gardening Magazine.

Amanda Tedrow is originally from Augusta, GA and has been the Athens-Clarke County Agriculture and Natural Resources Cooperative Extension Agent for the past eight years. She received her Master's degree in Plant Protection and Pest Management in 2010 and her Bachelor's degree in 2003 in Horticulture, both from UGA. Amanda coordinates the Athens Area Master Gardener, Master Composter, and Master Naturalist programs which teach participants about numerous gardening topics & environmental education. Her current gardening interests are vegetable gardening, succulents, and cacti.

Tara Dillard is a nationally recognized, and nationally award winning, garden designer, author, and speaker who hosted her own CBS-TV show, *The Better Gardening Show*.

Tara is degreed in engineering and horticulture. She is the author of 5 books and writes magazine articles and maintains a landscape design blog, www.TaraDillard.com. Based in Atlanta, GA, Tara lectures & designs nationally and locally. Tara knows creating a beautiful landscape creates a beautiful life, a moat of grace.

Rick Barnes has been an active ornamental horticulturist in Georgia for over 35 years, working first in the interior-landscape field and then as co-owner of Greensphere Landscaping, an award-winning design-build-maintenance firm.

Greensphere was acquired by NatureScapes, Inc. in 1996 and Rick has remained with the company as vice president of sales and marketing. Rick is past Chairman of the Georgia Green Industry Assn. and is a Certified Arborist. Rick has had numerous articles published and has spoken, most recently, to the Charleston Horticultural Society. Rick also works for the enhancement of the Georgia Perimeter College Native Plant Botanical Garden and volunteers as a speaker during the spring & fall lecture series.
